

Instructions for Cut Sheets

1. Locate the required Cut Sheet (below the instructions). **To download the Cut Sheet** (Right-Click on the sheet you require & click Save Link As) and save it to the Desktop.

2. Go to your Desktop and locate the Cut Sheet you saved to your computer. **Right-click the Cut Sheet and select Open With > Adobe Reader.** ([Download Adobe Reader Here](#), if you do not have it installed on your computer)

3. Once the Cut Sheet is open in Adobe Reader, **Fill out the Cut Sheet with the appropriate information, and Save your changes by going to File (on the top left of the screen), then click on Save as.** Change the file name to include your company name and date and anything else specific to the order, then click save. Make sure to choose if your order will be under USDA and if it is Priced or not. * *DO NOT* edit the Cut Sheet in your browser, due to possible browser compatibility issues.
